Biography The story so far....

It's been a rollercoaster year for 4clubbers.net's very own 22 year old DJ, Luke Pompey! Earning rave reviews from club promoters across the globe, promoting his own party Electro-Lick, DJing on Galaxy FM for the second time to over a million listeners, playing internationally across Europe, producing & engineering his debut singles, taking the North by storm and embracing the white isle with breathtaking performances Luke is definitely one to watch!

Working alongside one of the major players in the dance music scene 4clubbers.net has seen Luke play at some of the worlds most prestigious clubs and parties such as Gatecrasher Summer Sound System, Cream Ibiza, Goodgrief, Kissdafunk, VeryVeryWrongIndeed, Monza, Sankeys & Circoloco, alongside some of the worlds most prolific guest DJ's such as Tom Novy, Groove Armada, Basement Jaxx, Gregor Tresher, Paul Woolford, Marco V, Axwell & Ingrosso, Trophy Twins, Micky Slim, Filthy Rich, Fedde Le Grande, and the worlds biggest DJ Paul Van Dyk when 4clubbers.net hosted the Terrace at Cream Amnesia last summer making Luke the youngest ever UK DJ to play Amnesia.

Luke's growing popularity is firmly forging his career as one of the UK's most in demand young DJ's, An unforgettable season in Ibiza this year saw him destroy super clubs Eden and Es Paradis for non other than Kissdafunk as well as making guest appearances at The Zoo Project and Ketoloco to name a few. Luke's enthusiasm, professionalism and complete commitment to what he does are cementing his reputation in Leeds and the North. In an era where it is notoriously hard to stand out from the crowd Luke prides himself on his own passion and energy during his sets.

His definitive sound can be described as abstract electronic house music. No one can question his versatility whether he's charging up the dance floor with driving grooves, uplifting patterns and electro sounds or creating a night of melodic minimal techno. With the use of the Pioneer EFX-1000 FX unit, CD decks, Ableton, accapellas and tools, he makes his sets completely his own, and this allows his love for music to shine through.

2008 has shaped up to be a massive year and so far has seen Luke continue to work alongside 4clubbers.net & new international DJ Agency Speakers. Luke featured as an exclusive guest at the massive Tiesto Live In Search of Sunrise Tour @ Privilege Ibiza as part of the worlds biggest ever club promotion in partnership with the UK's biggest dance radio station Galaxy FM & Elektrik Playground as well as a 10 day tour of Australia in conjunction with the release of his track "Dancin" to Australian label Hu-Jo, and international work for Kissdafunk in Majorca. Also in 2008 Luke will be continuing his residencies with massive Leeds brands, Elektrik Playground, Kissdafunk, Gatecrasher, and Electro-Lick, DJ gigs along side both Basement Jaxx and Audio Bullies along with releases due on his debut productions, "Make it Happen", "Promises", "The Journey". And his massive new remix of Stardust - "Music Sounds Better With You". It's clear from the reaction he get wherever he plays that Luke is destined to be one of the industrys major players!!
